

MASTER CLASS OF FASCIAL MANIPULATION

June 26th 2026 – June 28th 2026

PROGRAM

Day 1 – June 26, 2026

08.30-08.45	Welcome		Depriori Gian Luca
08.45-09.30	Review of the anatomy and physiology of the T.S./Catenaries Biomechanical Model	Theory	Motton Francesco
09.30-10.30	Recapitulatory lecture about the Assessment Chart How to lead the interview, chronology, importance and direction of the compensation (somato-visceral, viscero-somatic)	Theory	Depriori Gian Luca
10.30-10.45	Coffee Break		
10.45-12.00	Review of the Manual Technique of the Apparatuses: Demo	Practice	Motton Francesco
12.00-13.00	Practice of the Apparatuses manual technique	Practice	Depriori Gian Luca
13.00-14.00	Lunch Break		
14.00-15.00	News/advanced knowledges about the Receptor sequence treatment	Theory	Motton Francesco
15.00-16.15	Clinical case treated by the teacher	Practice	Motton Francesco
16.15-16.30	Coffee Break		
16.30-17.00	Discussion about the clinical case	Practice	Motton Francesco
17.00-18.00	Case report/clinical reasoning with the students	Practice	Depriori Gian Luca

Day 2 – June 27, 2026

08.30-09.00	Review of the anatomy and physiology of the System	Theory	Depriori Gian Luca
09.00-09.30	Deep Palpation of the internal ganglia and practical application on the different systems	Theory and Practice	Depriori Gian Luca

09.30-10.30	Demonstration of the NEW manual technique for level 4	Practice	Depriori Gian Luca
10.30-10.45	Coffee Break		
10.45-12.00	Review of manual technique and procedures for the different Systems: demonstration by the teacher and practice for the students	Practice	Motton Francesco
12.00-13.00	Practice of the Systems manual technique: practice of the students with clinical cases examples	Practice	Depriori Gian Luca
13.00-14.00	Lunch Break		
14.00-15.00	Clinical case by the students in small groups: ASSESSMENT CHART and group CLINICAL REASONING (A)	Practice	Motton Francesco
15.00-16.15	Short-cut: FM™ treatment in 30 minutes	Theory	Motton Francesco
16.15-16.30	Coffee Break		
16.30-17.15	Clinical case by the students in small groups: ASSESSMENT CHART and group CLINICAL REASONING (B)	Practice	Depriori Gian Luca
17.15-18.00	Teamwork Systems: the students have the possibility to clarify some doubts about theory or practice, working in small groups with the teachers	Practice	Motton Francesco

Day 3 – June 28, 2026

08.30-09.15	Treatment logics for level 3 and 4: complex cases and integration between locomotor and internal dysfunctions	Theory	Depriori Gian Luca
09.15-10.00	Assessment chart and clinical reasoning for the Systems	Theory	Depriori Gian Luca
10.00-10.30	The second session, the importance of planning in FM®	Theory	Motton Francesco
10.30-10.45	Coffee Break		
10.45-12.00	Clinical case by the students in small groups: TREATMENT	Practice	Depriori Gian Luca
12.00-13.00	Discussion of the clinical cases	Practice	Motton Francesco
13.00-14.00	Lunch Break		
14.00-15.00	Treatment of the SPS: technical and practical knowledges	Theory	Depriori Gian Luca
15.00-16.15	Clinical case treated by the teacher Discussion about the clinical case	Practice	Motton Francesco
16.15-16.30	Coffee Break		

16,30-17.30	Crisis management in the SPS patient during the session	Theory	Motton Francesco
17.30-18.00	Conclusion		Depriori Gian Luca
